Dear Resident,

South Russell Village strives to provide quality services to our residents. During the past year, you or your H.O.A. brought to the attention of Village officials, a stormwater problem your property or neighborhood had, or is experiencing with rain and or stormwater. Some residents have water standing in their yards. Some have water running through their property, ruining landscaping, vegetation, etc. Some have water entering the home. You might have attended one or both of the two council meetings held in 2016, to discuss the storm water issues in our village. You might have simply asked your H.O.A. to handle the situation.

Village council members and council officials have worked with the Chagrin River Watershed Partners to develop a strategy to improve the handling of water in the Village. Our plans are not complete, but we would like to present our plans to you at our council meeting on Monday, February 27th at 7:30 pm., in the South Russell Village Hall council chambers. We will spend from 7:30-8:30 pm. on this issue. If you would like to speak at the meeting, please call 440-338-6700 and your name will be placed on the agenda to speak after the village's very tentative storm water plans are presented.

Thank you for your patience as we address a problem with storm water that has grown over the years as the Village has developed and grown.

Sincerely,

William G. Koons, Mayor
