

Wednesday, April 8, 6:45 pm.

Agenda:

David Herpst, Eagle Scout candidate, bird houses in the park, has been invited to attend but no confirmation as yet. If not I can summarize his plans as best I can.

SRV resident Barbara Stiebeling and Faith Pescatore, Ohio Council Humane Society, will probably attend. They have not asked to speak, just attend. If they want to speak I will give them five minutes combined.

Circus update, 10 acres, Monday, July 27, two shows,

Restroom update, 3200 square feet of non permeable surface is permitted for pavilion (900 sq. ft.), parking lot and restroom

Archaeological survey required in 2006.

Leash/no leash update

Limestone # 57 will be placed on the trail bottleneck.

Ketchel property is for sale, \$350,000 for 11.5 acres.

Cahill property is for sale, \$189,000 for 5 acres.

In discussions with the ODNR, OPWC, WRLC, and our lawyers it looks like a land swap is out of the question. Fences are not permitted per conservation easement.

Mowing pattern will change to reduce amount of land mowed, provide larger areas for nestling birds, and provide for better tree growth?

Geauga county Park District has published their bird event in their newsletter. Saturday, June 20, 8-10 am. We will provide drinks.

The pavilion ridge vent/ bird nest has been closed off.

Chagrin Astronomical Society has not responded to a request to hold a presentation in late August. Boy Scouts are interested.

Subject: Park meeting agenda

Valarie Mariola would like to hold a Girl Scout event in the park on Saturday, May 9, from 9-3 with a possible overnight. Council will need to approve overnight camping.

David Herpst is working with the Geauga Park District to install six bird houses on the Bell Road side of the park. He will be at our meeting on May 6 to finalize plans.

The restroom application is almost complete.

The archaeological survey is in process. We may only need a phone call or 1,300 holes dug in the park!

Leash/no leash will probably be decided on April 13.

Limestone will be installed in the bottle neck of the park when it is dry enough to work.

Park mowing pattern will be reduced to create large tracts of uninterrupted hay for the nestling bird.

The state of Ohio and the WRLC both said no to any land swap.

The pavilion ridge vent/bird house has been closed.

The cracks in the pavilion floor are receding.

No word from the Chagrin Astronomical Society on a possible summer event.

Anti-circus citizens Barb Stiebeling and Faith Pescatore spent the last five minutes of the meeting talking about the circus.

Only Te and I were present so we left around 7:30.

Next meeting is Wednesday, May 6. Time to plan for the Fall Festival.
